

**Kim Fitzmaurice**

Kim graduated from The University of Tasmania in 1996 with a Bachelor of Pharmacy and completed her intern placement at Rosetta Pharmacy.

After a few years, a change of scenery was required and she spent 9 months working as a medical representative for a pharmaceutical company.

This was followed by a 10-year stint working at the UTAS School of Pharmacy in a research and teaching capacity, along with regular locum work.

Since 2010, Kim has been a partner in South Arm Community Pharmacy which she established with Shane Jackson.

Outside of the pharmacy realm, Kim sits on the Tangara Trail Committee, the Save St Barnabas Church Working Group and sponsors the Stephanie Alexander Kitchen Garden Scheme at South Arm Primary School. When time allows she likes to walk her dog, ride her mountain bike and paddle her ocean ski.

Kim's experience across academia, research, industry, ownership, management, employer and employee will help her in this role for the Tasmanian Pharmacy Authority.
